

RIDE ON SWEEPER

SR 1601

- Excellent machine manoeuvrability thanks to the power steering (STD).
- Nilfisk dustguard system completely controls airborne dust to reduce cleaning time.
- Free floating main broom and fine tuning adjustment increases productivity and performance.
- The strong yet lightweight rotomoulded polythene covers and bumpers over a steel chassis provide automobile industry quality protection.
- NoTools system speeds main broom and side broom changing cutting down on service time.

The SR 1601 is the most technically advanced sweeper in its category, with innovations that increase cleaning productivity whilst simplifying operating and servicing requirements. Designed for industrial applications such as heavily soiled factories, construction sites, parking ect. The productivity is excellent thanks to a huge 900mm main broom, a 1600mm wide sweeping path, and the SR1601's all round reliability for getting the job done quickly.
